RE: APPLICATION FOR INDUSTRIAL ATTACHMENT IN SOFTWARE ENGINEERING

Dear Sir/Madam,

I am writing to express my interest in undertaking an industrial attachment at Caritas Micro-finance bank. I am currently pursuing a Bachelor's degree in Software Engineering at Kirinyaga University and have successfully completed my third year of study. I am expected to graduate in September 2026.

I am passionate about using technology to preserve, organize, and improve access to cultural and scientific information. I believe that combining innovation and history through digital solutions is key to engaging future generations, and I would be honored to contribute my skills toward this mission.

I am a fast learner, team-oriented, and passionate about building impactful, user-centered software. I am confident that my technical skills and work ethic will be a valuable asset to your team during this attachment period.

I would greatly appreciate the opportunity to contribute to your ongoing digitization and innovation efforts while learning from experienced professionals in your organization.

Thank you for considering my application. I am available for an interview at your convenience and can be reached at 0728708806 or kamaukevin871@gmail.com.

Yours sincerely,

Kevin Kamau Mburu
